LESSON X X

Saturday's reading, "The Gentile Woman's Faith," is the S. S. lesson came to him from Jerusalem? for June 3. G. T. Mt. 15:28.

DAILY MANNA.

Sunday, Feb. 25, Storm, Christ walking on the water, Mt. 14:22-23; [Mk. 6: 46b-52; Jno. 6:15-21

Monday, Feb. 26, Visit to Gennesaret, Mt. 14:34-36: Mk. 6:53-56. Tuesday, Feb. 27, Discourse on the bread of life, Jno. 6:22.71 Wednesday, Feb. 28, Christ remains in Galilee, Jno. 7:1, Thursday, Mar. 1, Discourse on unwashed hands, Mt. 15:1-20; Mk. 7.

Friday, Mar. 2, Journey northward, Mt. 15:21; Mk. 7:24. Saturday, Mar. 3. Daughter of the Syro-Phoenician woman healed, Mt 15:22-28; Mk. 7:25-30

### HELPS TO STUDY.

With Christ's leaving Galilee and his journey northward, we begin the study of the sixth period of his life, the period of retirement.

In this week's readings we have two important discourses-"the bread the banks of Salt river, in a secludof life" and "purification; " also two important miracles-"Christ's walk- ed section last week, Irving Parks ing on the water" and "his healing the daughter of the Syro-Phoenician. About the fourth watch of the night he came to them on the sea; between from the river banks into the earth. 3 and 6 a. m. This was the Roman method of reckoning time. They di- He followed the subterranean openvided the night into four watches of three hours each. The Jews made ing for a half mile when he encounthree watches of four hours each. v.52, "For their heart was hardened." "Heart" in the Bible denotes the center and source of man's spiritual ac- wide. Returning to Perryville he tives, including the intellect, the sensibilities, the will. (Mk. 2:8; 3:5.)

The discourse on the bread of life was spoken to many of the 5000 who composed of John Mitchell, Eugene had been fed. They had wholly failed to see the true significance of the Carpenter, Josiah and Geo. Godbey, ign or miracles, but followed him simply to have their hunger satisfied. and Mr. Parks visited the cave; they He showed them that the manna the fathers ate in the wilderness could not were equipped with lanterns and sufgive them eternal life, but that it was the symbol of himself, the true Bread ficient food to last for several days. of Life. He speaks to them, not of any physical process, but of a spiritual The party returned last night, and appropriation of himself which takes place through following the teaching say they covered a distance of eight which he utters. He who studies his words earnestly and faithfully, so miles underground but did not reach that they become the ruling force of his life, eats the flesh and drinks the the end of the cave. blood of Jesus; for the teaching of Jesus is the expression of his character, To conform to it is, therefore, to make one's own character like that of Jesus. not more than two feet deep at any So he explains also the figure of the vine and the branches (Juo. 15:7,8).

At about this time the Scribes and Pharisees sent a delegation from comparatively dry, and the atmos-Jerusalem (Mk. 7:1; 3:2), Jesus had a controversy with them, and with un- phere was cool and refreshing, the sparing plainess denounces them as hypocrites who were making void the cold wave having come on after they Word of God by the traditions of mev. The traditions of the elders is that entered the cave they became chilly body of teachings and usages in regard to the divers washings and ceremon- and emerged from the region of darkial purifications of the Jews which had gradually grown up among the Phar- ness. isses (Gal. 1:14). These regulations were religious, not sanitary or matters | They say that the natural features of social propriety. These traditions had for the Pharisees all the force and are grand to behold. Another party sacredness of law, even as in modern times many Christians are apt to be will make explorations of the cave on more tenacious of the usages and traditions of their church than studious of Monday, and they propose to go to the Scriptures to find out the real truth, or deeply anxious for the salvation the end of it. Many wild varments of souls. In this question of defilement the contrast is between physical were discovered by the explorers. food that goes into the man, and moral action which proceeds from him. They returned with seven coons and "All these evil things proceed from within and defile the man." The evil five oppossums. One of the coons that mends, their evil thoughts and deeds, do not simply show their wicked- tipped the beam at fifty pounds and ness, but defile them, make them wicked. We are the creators of our own was the largest one ever seen in this evil character by giving vent to our evil tendencies.

The salient features of the Later Galilean Period are organization, instruction of the Twelve, evangelization; popularity at the beginning but there was a big hole in the mountain waning at the end, and the opposition increasing. Despite the reception of somewhere in that section and now Jesus with which his work in Galilee opened, it is now certain that not even the mystery is solved. here can be peaceably develop his kingdom, and that the faith to ultimate success is by the way of rejection and death. The most definite positive results of these months of work is the little band of twelve who, however imperfect their ideas of Jesus' kingdom and person, are yet living with him, faithful to him, and willing to be led and taught by him. The conditions in Galilee were no longer favorable for further evangelistic work. Thus the period which opened with popularity ends with disappointment on the part of the multitude, abandonment of him by his many followers, and intensified opposition on the part of the Pharisees. It need not surprise us to find the next period opening with the withdrawal of Jesus into temporary retirement. Phoenicia, of which Tyre and Sidon were the principal cities, was at this time included in the Roman province of Syria. This, doubtless, was the first time Jesus had ever gone outside. Jewish territory since a child. This journey was not for preaching, but for retwement, and for intercourse with his disciples. This woman is called a Syro-Phoenician by race to distinguish her from the Carthaginians, or African Phoenicians. The Gospel must first be preached to the Jew, but it is equally adapted

### LETTER FROM WASHINGTON

NORTH YAKIMA, Feb. 4, 1906 Editor Press: If you will please allow me space in your good paper I will try to write to our relatives and friends that are scattered over Caldwell, Crittenden and Livingston counties! There are a good many of them we never have written to as

We have been in this state one year and nine months and we havent got anything ahead yet. You know this is said to be a great country, and I reckon it is. I havnt seen but very little of it yet, but what I have seen

There seems to be plenty of money here, but it's made today and spent tomorrow. I don't think it is the best place in the world for a poor man. I think there are other places just as good. There is so much of the time here that the market is glutted; I think I had rather be where there is not so much raised that there is no market for it. I don't wish to run the country down because I dont like it; there are other Kentuckians here that claim to be well satisfied, and would not leave for anything. am glad they are pleased for it is not a pleasant way to live, to be so far from your own native state, and not

That is one reason ! don't like it s too far from home. Then another thing it is too much of a mixed up place for me. I had rather be at home in my own native state, among my own kind of people.

We had bad luck last year. We made a crop of hops, expecting to make a few hundred dollars but the price this year was so low that we didn't clear anything. We made something like a thousand dollars but it took it all to pay the cost and expense of raising and harvesting the

any better off here than anywhere ny that could live and have the patience to ever pay for it.

There is a few things about the country that I like and that is, the winter weather don't hurt a person as bad here as it does back east, state and county; reliable historical Then the irrigation is a great thing and descriptive matter beautifully it is nice to see how it makes things grow; and while it is a good thing in this way I believe that it causes sickness. It seems that the people are more healthy when the ditches are shut off than in the summer, when the ditches are all running and the water is spread out over the land. Then people begin to have what they call malarial fever and typhoid fever. Now there will be some who will not agree with me in what I am saying, but that will be all right, I am honest

As for ourselves we have been tol-
